## WORK EXPERIENCE

### UX/UI Designer

May 2019 - present

*AgCall Inc*

Creating and designing customized marketing strategies through digital media. Develop mockups with Adobe XD and Illustrator. Taking a user-centered design approach to test interfaces, implement these mockups on Visual Studio and collaborate with other team members and users.

### Undergraduate Student Researcher

May 2018 - September 2018

*University of Calgary*

Research in Human-Computer Interaction and Information Visualisation with Sheelagh Carpendale. Learned the importance of a collaborative environment, and worked closely with Foothills Health Care Professionals. Created responsive and intuitive interface designs using Photoshop, JavaScript, HTML, and CSS. Learned to conduct user studies.

## EDUCATION

### University of Calgary

Bachelors of Science with a Major in Computer Science

Concentration in Human-Computer Interaction.

Human-Computer Interaction, Human-Robot Interaction, Information Visualization, Research in Human-Computer Interaction

## PROJECTS

### **komalw.com**

#### Website

Created to better understand web development, to practice techniques outside of university. Utilized modern web development languages, tools and principles such as Javascript, HTML and CSS

### **Calgary Hacks 2019, 2nd place**

#### Mobile Website

Created an application to aid police in finding missing people, and to help aid amber alerts. My group "Domain Lettuce" placed 2nd in CalgaryHacks 2019. Worked as primary UX/UI designer and helped with front end development using Reactjs. Created prototypes using Adobe XD, then implemented using HTML5 and CSS3.

### **Little Me Montessori**

#### Website

Created a website for a small local business. Worked with the customer to get an understanding of the content. Created the logo using PhotoShop and Illustrator. Implemented the website on Squarespace.
